WET AND DRY VACUUM CLEANER

CLEANTEK design and manufacturing Industrial Wet and Dry Vacuum Cleaners. Our model was developed to meet the requirements for vacuuming dust and powder, solid and liquid materials and is equipped with direct drive induction vacuum motor which requires no maintenance. It is made for heavy-duty application. The frame with caster simultaneously provides for maximum stability and mobility of the industrial vacuum cleaner. The total unit is epoxy powder coated and the total unit is attached with heavy-duty portable wheels.

Industrial Wet and Dry Vacuum Cleaner:

Cleantek Manufacturing various kind of Industrial wet and dry Vacuum Cleaner for commercial and industrial cleaning applications. Cleantek Vacuum Cleaners used for floor, Industrial Products cleaning, Wall Cleaning, Car Interior Cleaning etc... Cleantek Vacuum cleaners wet and dry model are safe and easy to use and have higher efficiency than any other kind of manual tool cleaning like broom cleaning,. We supply powerful suction motor attached machine with useful attachments for easy and efficient cleaning. Our vacuum cleaners are used for multipurpose cleaning use like Home carpet cleaning, Water tank cleaning, Sofa and chairs cleaning, Car Interior cleaning, small industrial cleaning etc...

Single Phase Dry Vacuum Cleaner

Cleantek Single phase Vacuum Cleaner is used various industries & commercial places cleaning like Small shops, Small Factories, Hotels, Temples etc... It is suitable for intermittent duty applications. Cleantek offers various models in collection & Suction Pressure capacity.

How it works

Vacuum cleaners work by using a vacuum motor to generate suction to suck up dust, dirt, waste granules from working floors, walls, Machine surfaces. Dust particles are filtered in the dust bag before exhaust. Various kind of accessories are used to clean the industrial floor and machinery surface, parts. Mostly vacuum cleaners are fitted with wheels for easy handling. Centralized vacuum cleaners models are stationary version. It is fitted in floor and connected with suction pipe or ducting. Cleantek manufacturing this machine in various tank collection capacity. Also we do custom made model in tank capacity and suction power capacity. Powerful compact vacuum motor produce vacuum to suck the fine dust, debris, coolant oil, metal debris, floor cleaning etc...

Machine in compact size and light weight, so that move any where with attached Larger portable rear wheels. Easy to clean the collection tank. Easy to upgrade for Multistage filtration like paper filter and HEPA filter. Various kind of accessories supplied with machine and easy to use.

FEATURES

- Compact in Size
- Running in Single phase Voltage
- Light Weight & High Suction Power
- Various Suction Tools and Nozzles
- Portable wheels for easy to move
- Optional HEPA Filter Attachments
- Integrated Cyclone Separator
- High Efficiency Suction Motor

TECHNICAL SPECIFICATION

PARAMETERS	VCW15	VCW30	VCW50	VCW200	VCW300
Motor in watts	1000	1200	1200	2000	3000
Input Power	230 v / 50 Hz	230 v / 50 Hz	2500 m ³ / Hr	2500 m ³ / Hr	3500 m ³ / Hr
Airflow in CMH	179	195	195	381	432
Suction in mm of wg	1800	2000	2200	2500	3000
Weight in Kgs	13	15	25	30	32
